RESEARCH INTERESTS

My research interests are, but not limited to, as below:

Logistics and Supply Chain Management, Operations management, Demand Forecasting, Technology Analysis, Business Analytics, Transportation, and Smart/ Intelligent Supply Chain.

PUBLICATIONS

1. Ghaithan, A., Abdelhalim, T. A., Wuni, I., & **Khan, N.T** (2026). A principal component analysis of the critical success factors for implementing modular housing projects in Saudi Arabia. *Journal of Housing and the Built Environment*, 1-25.
2. **Khan, N. T.**, Tahir, H., Mohammed, A., Ghaithan, A., Tayyab, M., & El-Ferik, S. (2026). From Blocks to Benchmarks: How Research in Blockchain and Operations Management Aligns with Policy Making and SDGs. *Results in Engineering*, 109542.
3. **Khan, N. T.**, Al Hanbali, A., Demir, E., & Kim, Y. (2025). Beyond lotka-volterra: A game-theoretic exploration of two-dimensional airline competition. *Transportation Research Part A: Policy and Practice*, 200, 104619.
4. Aslam, J., Lai, K. H., Al Hanbali, A., & **Khan, N. T.** (2025). Blockchain solution for supply chains & logistics challenges: An empirical investigation. *Transportation Research Part E: Logistics and Transportation Review*, 198, 104134.
5. Alromema, M., Al Hanbali, A., Baubaid, A., AlGhazi, A., **Khan, N. T.**, & Saleh, Z. (2025). Factors influencing couriers' acceptance of crowdsourcing in last-mile delivery in Saudi Arabia. *The International Journal of Logistics Management*, 1-24.
6. **Khan, N. T.**, Tahir, H., Al Hanbali, A., Tayyab, M., & El Ferik, S. (2025). Bridging Research and Policy: How Blockchain Research Contributes to Global Transport and Logistics Regulations. *Results in Engineering*, 107827.
7. Ghaithan, A. M., **Khan, N. T.**, Alhunfush, H., Mohammed, A., & Alshibani, A. (2025). Life-Cycle Sustainability for Vision 2030: The Impact of Life-cycle Sustainability Practices on Sustainability Performance of Saudi Oil and Gas Sector. *Arabian Journal for Science and Engineering*, 1-23.
8. Mohammed, A., **Khan, N. T.**, Alkerishan, O., & Ghaithan, A. (2025). Identifying the barriers and

enablers of blockchain adoption in Saudi Arabian last-mile logistics using principal component analysis. *Technology Analysis & Strategic Management*, 1–17.

<https://doi.org/10.1080/09537325.2024.2448155>

9. Aslam, J., Saleem, A., **Khan, N. T.**, & Kim, Y. B. (2022). Blockchain technology for oil and gas: implications and adoption framework using agile and lean supply chains. *Processes*, 10(12), 2687.
10. Saleem, A., Aslam, J., Kim, Y. B., Nauman, S., & **Khan, N. T.** (2022). Motives towards e-shopping adoption among Pakistani consumers: an application of the technology acceptance model and theory of reasoned action. *Sustainability*, 14(7), 4180.
11. **Khan, N. T.**, Aslam, J., Rauf, A. A., & Kim, Y. B. (2022). The Case of South Korean Airlines-Within-Airlines Model: Helping Full-Service Carriers Challenge Low-Cost Carriers. *Sustainability*, 14(6), 3468.
12. Aslam, J., Saleem, A., **Khan, N. T.**, & Kim, Y. B. (2021). Factors influencing blockchain adoption in supply chain management practices: A study based on the oil industry. *Journal of Innovation & Knowledge*, 6(2), 124-134.
13. Javed, U., Ullah, S., Imran, M., Malik, A. I., & **Khan, N. T.** (2021). Power Distribution Network Expansion and Location Optimization of Additional Facilities: A Case Study. *Sustainability*, 13(14), 7760.
14. Hassan, N. U., Khan, F. Z., Bibi, H., **Khan, N. T.**, Nayyar, A., & Bilal, M. (2021). A decision support benchmark for forecasting the consumption of agriculture stocks. *IEEE Consumer Electronics Magazine*, 10(6), 45-52.
15. **Khan, N. T.**, Jung, G., Kim, J., & Kim, Y. B. (2019). Evolving competition between low-cost carriers and full-service carriers: The case of South Korea. *Journal of Transport Geography*, 74, 1-9.
16. **Khan, N. T.**, Kim, Y. H., & Kim, Y. B. (2018). The dynamic impact of low-cost carriers on full-service carriers and the tourism industry of South Korea: a competitive analysis using the Lotka–Volterra model. *Asia Pacific Journal of Tourism Research*, 23(7), 656-666.
17. Jung, G., Kim, Y., **Khan, N. T.**, & Kim, Y. B. (2018). Risk evaluation method for range of motion after total hip arthroplasty applying monte-carlo simulation. *Procedia Computer Science*, 141, 351-357.
18. **Khan, N. T.**, Park, J., & Kim, Y. B. (2018). An integrated model for forecasting wheat consumption in Pakistan: emphasizing social and economic factors. *JAPS: Journal of Animal & Plant Sciences*, 28(1).

Book Chapter:

1. Aslam, J., Saleem, A., **Khan, N. T.**, & Kim, Y. B. (2023). A Proposed Framework for Designing Blockchain Solutions for Logistics in post-Covid Scenario and Future Pandemics. *Smart and Sustainable Supply Chain and Logistics—Challenges, Methods and Best Practices: Volume 2*, 29.

Under Review:

1. An Integrated Decision Support Model for Inspection Level Classification in Construction Projects. *International Journal of Construction Management*. (Under Review-minor revision)
2. Optimizing Procurement Delay Predictions with Deep Learning and Machine Learning Models Using Heuristic Search Techniques **Journal of Management Analytics**.

(Conditionally accepted)

3. From Artistic Ambitions to Organizational Strategy: Integrating Cultural and Economic Value in Organizations. **Creative Industries Journal. (Revision Submitted).**

Conferences participated:

1. Improving Forecast Accuracy for Retail Supply Chains Using ARIMA and Machine Learning Approaches. **SMiLE 2025**
2. Sustainable Mobility Linkage with the Sustainable Development Goals: Period-Level Mapping and Thematic Analysis (2010 – 2025). **SMiLE 2025**
3. A Machine Learning Approach for Highly Volatile, Disaggregated, and Intermittent Demand Forecasting for Last-mile Logistics in Saudi Arabia. **SMiLE 2024**
4. Evolution on the next industrial evolution: A forecast. *British Academy of Management*, 2023. (accepted)
5. Data dissemination through Smart Traffic Lights for Accident Prevention. *2nd International Informatics and Software Engineering Conference (IISEC)*. 2021
6. Decision Support System for Forecasting the trends in Energy Sector of Pakistan: Multivariate Modeling with Socio-economic and Environmental Factors. *IEEE Cube 2021*.
7. Catering the New Product Development through Supplier Integration; the Role of Manufacturing Flexibility and Product Modularity. *5th North American International Conference on Industrial Engineering and Operations Management At: Detroit, USA, 2020*.
8. Should Blockchain be One of the Supply Chain Management Practices? An Empirical Evidence from Pakistan Oil Industry. *Academy of Innovation, Entrepreneurship, and Knowledge, Spain, 2020*.
9. Risk Evaluation Method for Range of Motion after Total Hip Arthroplasty applying Monte-Carlo Simulation. *The 8th International Conference on Current and Future Trends in Information and Communication Technologies in Healthcare 2018*.
10. An Insight to the Strategy of Airlines-within-airlines in South Korea: A Modification of Lotka-Volterra Model in Expanding Market. *The 6th International Conference on Big Data Applications and Services 2018*.
11. Recommending the Parameters for Pre-operation Planning from the Perspective of Range of Motion after Total Hip Arthroplasty. *The 6th International Conference on Big Data Applications and Services 2018*.
12. Development and Application of Agent-based Disease Spread Simulation Model: the Case of Suwon, Korea. *Winter simulation conference 2017*.
13. The Dynamic Impact of Low-cost Carriers on Full-service Carriers and Tourism Industry of South Korea; A competitive Analysis using Lotka-Volterrea Model. *Industrial Engineering and Operations Management 2017*.
14. A New Simulation Framework for Intermittent Demand Forecasting applying Classification models. *Asian Simulation conference 2017*.
15. Competition Analysis of LCC and FSC of South Korean Airline Industry: A Lotka-Volterra approach for Jeju Island Travelers. *The 6th International Conference on Big Data Applications and Services 2018*.
16. Forecasting Wheat Consumption of Pakistan Considering Social and Economic Factors. *Conference of International Journal of Industrial Engineering 2016*.
17. Intermittent demand forecasting using classification models. *Conference of International Journal of Industrial Engineering 2016*.

18. A New framework for Generating Key Performance Indices of OLB Module line at LCD Manufacturing. *The 14th Asia Simulation Conference & The 33rd JSST Annual Conference: International Conference on Simulation Technology, October 26 – 31, 2014, Kitakyushu, Japan*

ACADEMIC AND TEACHING EXPERIENCE

- I am currently part of the Integrated Research Center for Smart Mobility and Logistics at King Fahd University of Petroleum and Minerals in Saudi Arabia. Since December 2023, I have collaborated with various research teams, focusing on areas such as last-mile logistics and the digitalization of supply chains (especially the Blockchain). I have taught **Introduction to Data Science** at UG level where students come from different disciplines scoring **9.12 and 9.10 out of 10**.

- I worked with the Faculty of Business and Management, Information Technology University as Assistant Professor from March 2020 to December 2023. I supervised the Capstone projects at EMBA and FYPs at UG. The courses I thought there are as under:

- Operations and Services Management EMBA-Spring 2020 (Evaluation Score: 3.34/5)
- Operations Management BSMT-Fall 2020 (Evaluation Score: 4.41/5)
- Operations and Services Management EMBA-Spring 2021 (4.08/5)
- Operations Management- Fall 2021 (4.48/5)
- Business Analytics (Evaluation score: 4.1/5)
- Supply Chain Management Essentials-Spring 2022 (4.4/5)
- Operations Management-Fall 2022 (4.41/5)
- Operations and Services Management-Fall 2022 (4.31/5)
- Supply Chain Management Essentials-Spring 2023 (4.39/5)

Administrative experience:

- Chairperson FBM Jan 2022 to Feb 2023: As chairperson I was responsible for managing both UG and PG programs including curriculum development, program reengineering, visiting and full-time faculty hiring, developing self-assessment reports, and industry linkages.
- Director EMBA March 2022 to December 2021 & March 2023~ December 2023
- Batch Advisor
- Student Counselor
- Board of studies: Curriculum Development at undergraduate and graduate levels

- Previously I worked with Riphah School of Business and Management as Assistant Professor for one year. I supervised 6 MS students during my stay at RSBM. The courses offered included:
- Supply Chain and Logistics Management
 - Strategic Supply Chain Management
 - Engineering Management
 - Operations Management
 - Operations Research
 - Advanced Research Methods

Administrative experience:

Exam superintendent for business school.

INDUSTRY EXPERIENCE

I worked with Mobi-Serve Pakistan as a coordinator in Multan from April 2012 to Feb 2014 and responsible to manage 17 Clusters & 850+ sites of Mobilink.

As a coordinator my responsibilities included:

- Forecasting spares.
- Resource allocation.
- Setting monthly Material Budget.
- Oracle Based Database (Raising material issuance requests, purchase requests)
- Daily consumption reports.

Previously, I had worked with Extreme Engineering Solutions as Team Leader on U-Fone/Huawei Managed services project from January 2011 to March 2012 responsible for leading 8 teams and 350+ sites of U-Fone.

My responsibilities were:

- Field service reports.
- Planning monthly Materials Budget
- Forecasting spare.
- Material distribution.
- Monthly Work Order planning.

THESIS SUPERVISED (MS)

- Impact of ERP Capability on Supply Chain Performance, a mediating role of Supply Chain Agility.
- Forecasting the energy sector of Pakistan using Socio economic factors.
- The Impact of supply chain integration on firm performance with a moderating role of organization culture.
- The Impact of Lean & Agile Manufacturing Practices on Sustainable Performance in the presence of Moderating Role of Proactive Environmental Response in Textile Industry of Pakistan

CAPSTONE SUPERVISION (EMBA)

- Implementation of Distributor Management System (DMS) at Beiersdorf Pakistan Private Limited.
- KHIDMAT: A Digital System for Employee Old Age Benefit Insurance, Pakistan

EDUCATION

Masters and Doctorate (combined) (2014-2019) Sungkyunkwan University, South Korea.

BSc Electronics Engineering (2010) Islamia University, Bahawalpur.

TECHNICAL SKILLS

- R language
- SPSS
- Python
- Smart PLS
- MATLAB
- MS OFFICE

ACHIEVEMENTS

- Professional ethics award from ITU 2022
- Case writing scholarship from the Case Centre as case supervisor (2020).
- Fully funded Scholarship from Higher Education Commission of Pakistan. (2014-2019)
- Brain Korea scholarship 21 (Spring 2017, Fall 2018)
- Research grants from National Research Foundation of South Korea (April 2015- Feb 2019)
- HEC approved Supervisor since June 2019
- Research grant from ORIC RSBM.
