12.	Instructor's ability to integrate contents of the module with real world problems:					

1. **What are the three good points/strengths of the instructor?**

   _____

   _____

   _____

2. **What are the three points/areas to be strengthened?**

   _____

   _____

   _____

3. **What are your suggestions to further enhance the learning experience for this course?**

   _____

   _____

   _____

Instructor: Dr. Nokhaiz Tariq Khan

Course Title: Operations Management

Program: BSMT

Student Comments:

Q: 1 What are the three good points of the instructor?

teacher encourages the student to participate in the class and come in class at time. Also,teacher is very humble and nice to students.

Already completed the form

NA

Everything
Very interesting person

.....

Clear communication engagement with students

Nil

Always on time.
Encourage student participation.
Clarify everything.

Understands the ambiguity, teaches well

He was very clear of what he was teaching. He gave his best to deliver the lectures on time and to the point. Got to learn a lot from him.

Comes early in the class
Clear concepts
Have good knowledge of course

Humble
Helping
Best explainer

.

None

Nothing

time management, class participation and energetic

He is very knowledgeable
He is very professional
He is very supportive

knowledeable
responsive
supportive and easily approachable

The instructor could provide more opportunities for students to interact with each other.
The instructor could provide more real-world examples and case studies.
He uses a variety of teaching methods, including lectures, discussions, and group activities.

No comments

Take the course in practical examples.

NO good and not bad

No comments

No comments

Disciplined
Active
Helpful

linking the course with real world examples
making the subject interesting

nil

Answers all the questions
Always on time
Explain with real world problems

good teacher

1) on time
2) Encourage students to participate
3) Provide practical and experimental knowledge about course

he gives us real-life examples.
plans out activities in class.
helps us with every difficulty.

Great knowledge
Excellent personality
Listen students carefully

The subject was overall good

Punctuality
Timely checking of work and fair marking
Creates interest in the subject by incorporating real world examples and engaging the students

creates a good environment
makes things related to daily life
creates activities

Nothing

Everything

All is good

Made the subject really interesting by including activities and making content of course relatable to real life.
The assignments and quizes were really helpful

Active
Hardworking
Regular

All is good

He engages us
He makes our interest in Topic
He is always available outside the class

All

Explains very well

Very good
Take class on time
Grip over the subject
effective teaching method

I
D
K

Engaging Teaching Style,
Supportive and Knowledgeable,
Practical Application Emphasis,
Seems like well experienced and expert in the subject

- operations and Sir Nokhaiz are the perfect combo
- knows operations on the back of his hand
- teaches too well
the perfect balance of practicals and book
industrial visits were outclass

The instructor is very knowledgeable
He is very punctual
He grade the paper very wisely

Good

Expertise and Knowledge
Communication Skills
Organizational Skills

Communicative
Focus on concepts
Good grip on course

askas

best teacher for this subject
listens to students
understands students
create a healthy environment

.

..

Being on time
Interaction with the class
Those visits to industries

Includes alot of activities and trips
Knows his concepts verywell
Relates with real life exampls

na
Hi

Q: 2 What are the three points/ areas to be strengthened?

none
Already completed the form
NA
Nothing
....
Nothing
Nil
Nothing
Nothing
No comments!

Give at least 10 minute leniency towards arriving into class

No
.
None
Nothing
nil
None

foster more critical thinking skills in students
create more assessments that would require students to use their thinking ability in those real world scenarios
promote more creativity

More group work
Greater focus on practical work than theoretical part

Need a lot of things to be settled for understanding of the course and should develop the interest of the students for the course as well

Plzz enter late students in class.
no
Need to focus on a lot of points
Should focus on every thing
Nothing
going through the concepts a little too fast which affects understanding of the subject
nil
The course need to focus on real world problems rather than mathematical formulas
none
1) Cover the course too fast
2) cover two to three topics in one lecture
3) Not given much detail about the contents covered with the help of Excel

i dont think of any this instructor is actually a great one.

Nothing to be strengthened

Need more examples for a better understanding related to the topic
Time constraint.
Instructor speed it bit fast

Slowing down the pace of the course
Assign more assignments
Share more resource materials

n/a

Nothing

Nothing

Encourage class activity
Take announced quiz

Some of the lectures were very fast paced for some students to handle

Nothing

All is good

The course should be designed in a way that it completed in the given time which didn't happened this time
The visits and there presentations should be held other than classes
The visits should be more frequent

Some

Nothing

None

Sir take the lecture too quickly that most the things missed while writing down

nothing

I
D
K

Real-world Application Integration, Interactive Learning Opportunities, Current Industry Trends Emphasis

- mathematics, graphs and stats in this course are a tough set should teach begginer stuff first

There is no need to be strengthened

None

Assessment Strategies
Time Management
Enhance the inclusivity of the teaching approach

Be lenient in attendance
Focus on weak students' understanding
Do more class activities or assignments

saj

.

..

Real life connection with the course

Needs to assess exams better and fairly
Rest all good.
na
Hi

Q: 3 What are your suggestion for further improvement to enhance the learning experience for this course?

none
Already completed the form.
NA
Everything is best
.....
Nothing
Nil
Nothing
Nothing
No comments!
Given above
No
.
None
Nothing
nil
None
involve more external speakers and experts

Weightage of finals and mids should be low.

make and follow the understandable objectives of the course , Real life examples considerations

Have more visits.
NO suggestions
should change the teaching style
Should follow a good teaching style
Nothing
explain concepts at a slower pace
nil
Too much sophisticated course with nothing practical. It seems like it's a practical course but truly disappointed.
none

Overall the session was quite interesting and learned new things about the industry and how it operates

none

Arrange visit of the industry in the start of course

Need to be a bit slow coz it's an operation management course so we need deep understanding of it

Schedule the visits early on

n/a

Nothing

Perfect

Nothing

As there were many different topics in this course and to teach all of the topics in one course, teacher had to teach each topic quickly. If the course could be divided into two different courses it would be really helpful as we would learn each topic thoroughly as it is one of the course that would help us greatly in future. so understanding the content is really important

Nothing

All is good

It was fairly a good combo and I don’t think any thing to improve its just the visit which should be more frequent

None

More interaction with industry operations

None

My only suggestion is to teach slow

nothing

I

D

K

Offer supplementary resources for self-paced learning.
Utilize more visual aids and multimedia for complex concepts.
Provide timely and constructive feedback on assignments.

reduce maths in this course

There is no suggestions

None

Utilize feedback effectively and Focus on students' needs, interests, and learning styles

kjas

More interaction

Include more trips and activities so we learn from real world practicing experts
